

Quality Policy

The scope of K C Engineering Bearings business activities is to provide services in the design, manufacture and repair of hydrodynamic, whitemetal lined bearings.

K C Engineering Bearings purpose, from a quality perspective, is to be recognised as market leaders in the services it provides. The company holds a strong reputation in the market place for high quality products and a responsive, flexible service. The activities of the company will work to preserve and enhance this reputation.

K C Engineering Bearings recognises the need for a high quality product to protect its clients and its own reputation from incurring any damage or losses. To achieve this, K.C. Engineering Bearings must operate with a quality first mentality. The components manufactured and repaired by K.C. Engineering Bearings are used in critical, high value machinery and processes and therefore product integrity and fit for purpose must always come first.

K C Engineering Bearings is accredited with ISO 9001 Quality Management Systems and will work to comply with the requirements of this accreditation and, as far as possible, exceed the requirements in a proactive manner to benefit the customers of K C Engineering Bearings, its employees and shareholders.

This commitment to quality is based on the principle that the effective implementation of operational systems and controls, which reflect both customer and business requirements, will allow K C Engineering Bearings to maintain and improve customer satisfaction and improve the operational performance of K C Engineering Bearings.

It is the policy of K C Engineering Bearings to achieve this through the continual improvement of the Company's activities by the planning, setting and implementation of specified and measurable quality objectives by the Management Team. These objectives and measures will be reviewed by the Management Team via the Management Review Process which is held every 12 months. During the year, business planning and review meetings will also include a review of the quality objectives.

The Management Team also recognise the importance of the entire company working within this policy and will ensure all aspects of this policy are communicated to its employee's on a regular basis and the measurable objectives are regularly communicated and updated.

Tobias Heintz
Managing Director
